

The Great Grid Upgrade

Sea Link

Community Update

Suffolk to Kent

July 2023

National Grid would like to update you on our plans for Sea Link following our non-statutory consultation last year.

Since our informal (non-statutory) consultation closed at the end of 2022, we have been continuing to develop the project from an indicative 'graduated swathe' into a more refined design.

This process is informed by considering feedback received during public consultation alongside input from statutory stakeholders, the outcomes of various environmental and engineering surveys, and ongoing engineering and design development.

We will present the detail of our refined proposals, and seek further feedback, during a formal (statutory) consultation,

that we plan to hold for eight-weeks between October and December 2023.

More information on how to get involved will be available before the next round of consultation starts.

We will also publish details of the feedback received during our informal consultation.

In the meantime, we are holding targeted conversations with local authorities and other statutory consultees, and we continue to engage with landowners to discuss access for surveys.

To find out more about Sea Link, please visit our project website at nationalgrid.com/sealink or call our project team on **0808 134 9569**.

Register for updates

If you would like to receive project updates direct to your inbox, please visit our project website at **nationalgrid.com/sealink** or scan the QR code.

In the meantime, if you have any questions about our project, please contact us using the details below.
